

# **Class contact's sheet**

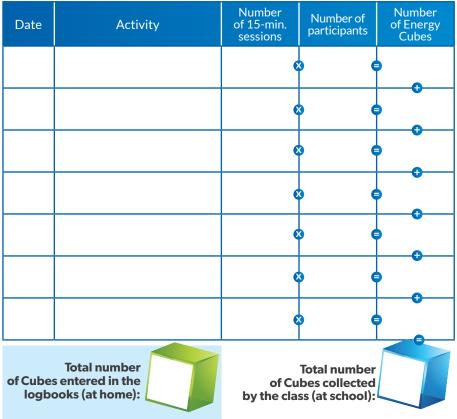

Class: \_\_\_\_\_

School: \_\_\_\_\_

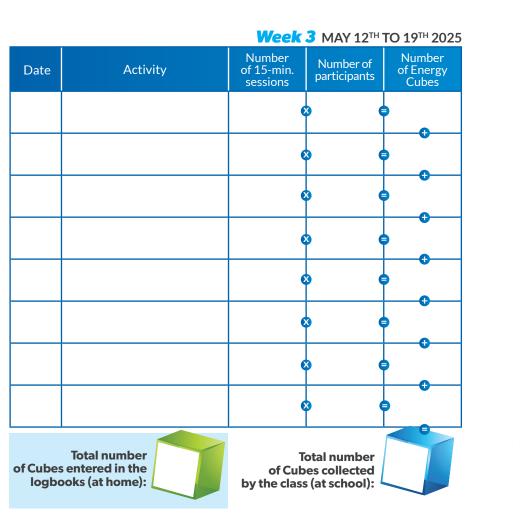

#### **HOW TO TALLY YOUR CUBES**

1- Each week, class contacts must write down the activities performed by their group during school hours in the blue grid. They must then add up the Cubes collected by their class at school and enter it in the blue cube at the bottom of the grid. 2- Using student logbooks, class contacts must also tally the Cubes collected at home. This total must then be entered into the green cube under each grid. 3- At the end of each week, the Class contact's calendar must be handed to the school challenge leader so they can enter the school's results on *Planète Cube*.
